This page is dedicated to the memory of Douglas George

The following pages contain some items from the archives, including a batch of QSL cards from around 1938, some of Dad's radio circuits, and a couple of pieces of equipment. (Larger image of [left photo](#) , larger image of [right photo](#))

{gallery}dads/freqstd{/gallery} **Frequency Standard.**
{gallery}dads/radio{/gallery} **1959 Superheterodyne receiver.**
{gallery}dads/radio2{/gallery} **Another part (and some explanation) of the same radio receiver.**

Signal Generator:

Dad's Heathkit Signal Generator.

Voltmeter:

These are some photographs of Dad's voltmeter. The lower switch sets one of 6 ranges and is labeled

Historic QSL Cards from 1938

Dad's radio circuits

Written by Hans Summers

Saturday, 22 August 2009 22:51 - Last Updated Saturday, 22 August 2009 23:24

My dad's radio circuit was built in 1938. These
