

Ruby - Feature #11052

[PATCH] Blockless Pathname#ascend and #descend return Enumerator

04/08/2015 10:18 PM - chastell (Piotr Szotkowski)

Status:	Closed	
Priority:	Normal	
Assignee:	akr (Akira Tanaka)	
Target version:		
Description It would be beneficial for blockless Pathname#ascend and #descend to return an Enumerator (rather than raise a LocalJumpError). Example use case of finding the Git root of the current directory: <pre>git_dir = Pathname.new('.git') Pathname.pwd.ascend.find { dir dir.entries.include?(git_dir) }</pre>

- File 0001-Blockless-Pathname-ascend-and-descend-return-Enumera.patch added

#2 - 04/24/2015 12:38 PM - chastell (Piotr Szotkowski)

Apologies if you're busy and I should just wait (happy to do it!), but it's my first non-doc contribution and I'm not sure: is there anything I should add to this feature request?

#3 - 05/21/2015 08:10 AM - hsbt (Hiroshi SHIBATA)

- Status changed from Open to Assigned

- Assignee set to akr (Akira Tanaka)

#4 - 06/14/2015 03:15 PM - akr (Akira Tanaka)

- Status changed from Assigned to Closed

Applied in changeset r50897.

- ext/pathname/lib/pathname.rb (descend): Blockless form supported. (ascend): Ditto. [ruby-core:68820] [Feature #11052] Patch by Piotr Szotkowski.
