

Ruby - Bug #19851

Ripper returns an extra block argument for :params with :args_forward

08/25/2023 02:19 PM - thyresias (Thierry Lambert)

Status:	Closed	
Priority:	Normal	
Assignee:		
Target version:		
ruby -v:	ruby 3.2.2 (2023-03-30 revision e51014f9c0) [x64-mingw-ucrt]	Backport: 3.0: DONTNEED, 3.1: REQUIRED, 3.2: REQUIRED
Description require 'ripper' class BasicParser < Ripper EVENTS.each do event module_eval(<<~RUBY, __FILE__, __LINE__ + 1) def on_#{event}(*args) puts "#{event}(\#{args.inspect}) " args.unshift :#{event} args end end end end BasicParser.new('def m(...); end').parse # stdout: # kw(["def"]) # sp([" "]) # ident(["m"]) # lparen(["("]) # op(["..."]) # args_forward([]) # params([nil, nil, nil, nil, nil, [:args_forward], :&]) I would have expected the last :params argument to be nil, not :&.
