

Ruby - Bug #20982

Inconsistency between Hash#inspect and ENV.inspect in Ruby 3.4

12/25/2024 03:17 PM - herwin (Herwin W)

Status:	Closed	Backport: 3.1: DONTNEED, 3.2: DONTNEED, 3.3: DONTNEED, 3.4: DONE
Priority:	Normal	
Assignee:		
Target version:		
ruby -v:		
Description		
Ruby 3.4 changed the stringified output of Hash to add whitespace to the hashrockets		
<pre>ruby -e 'p({ "a"=>"b" })' {"a" => "b" }</pre>		
The output of ENV.inspect is very similar to Hash#inspect, but does not include the whitespace		
<pre>ruby -e 'p ENV' {"SHELL"=>"/bin/bash", [...] }</pre>		
Adding the extra whitespace around the hashrockets would improve the readability, and make things more consistent.
