Hi,
```

I cannot reproduce by "gem install thor" with trunk on Linux.
Could you elaborate the process to reproduce?

Eric, do you know anything about this ticket?

```
$ ../ruby-trunk-local/bin/gem install thor
Successfully installed thor-0.13.4

This bug is from RDoc 2.4, so I think it can be marked as fixed.

I cannot reproduce it on OS X 10.6:
