

Ruby - Feature #8882

rb_obj_is_mutex() into include/ruby/intern.h

09/10/2013 12:29 AM - Glass_saga (Masaki Matsushita)

Status:	Rejected	
Priority:	Normal	
Assignee:	ko1 (Koichi Sasada)	
Target version:	2.1.0	
Description		
rb_obj_is_mutex() is currently an internal API function. However, this function is useful for C extension developers to distinguish between Mutex and other objects extended by Mutex_m. I want to use it in ext/thread/thread.c for this purpose.

Maybe you want to use it for CV to make it fast.
However, we are not recommend CV because it is difficult primitive.
So we shouldn't touch it.
