SPEED POST

CP-14/27/2025-IPC-III-HO-CPCB-HO 11547 **Jan 19, 2026**

To,

The Member Secretary
Rajasthan Pollution Control Board,
4, Jhalana Institutional Area,
Jhalana Doongri, Jaipur, Rajasthan- 302004

Directions under section 18(1) (b) of the Water (Prevention & Control of Pollution) Act, 1974 and Air (Prevention & Control of Pollution) Act, 1981 in the matter of M/s Mahou India Private Limited, 1038-A, Industrial Area, Chopanki, Bhiwadi, Rajasthan-reg.

WHEREAS, under section 16 of the Water (Prevention & Control of Pollution) Act, 1974 and under Section 16 of the Air (Prevention & Control of Pollution) Act, 1981, one of the functions of the Central Pollution Control Board (CPCB), constituted under Water (Prevention & Control of Pollution) Act, 1974 is to coordinate activities of the State Pollution Control Boards and Pollution Control Committees and to provide technical assistance and guidance to SPCBs/PCCs; and

WHEREAS, Distilleries are identified as one of the 17 categories of highly polluting industries which emits environmental pollutants directly or indirectly into the ambient air and water, having potential threat to cause adverse effect on the water and air quality; and

WHEREAS, for strengthening the monitoring and compliance through self-regulatory mechanism, a direction under section 18 (1) (b) of the Water (Prevention & Control of Pollution) Act, 1974 and the Air (Prevention & Control of Pollution) Act, 1981 was issued on February 05, 2014 to all the State Pollution Control Boards (SPCBs)/ Pollution Control Committees (PCCs) for installation of real-time online effluent/emission monitoring system (OCEMS) in 17 categories of industries including Distillery industry; and

WHEREAS, CPCB has developed a new OCEMS Portal (namely ODAMS), having features such as direct transmission of data from industries to CPCB Servers without any dependency on TPD, PTZ Camera Integration, Data Analytics & Visualization, Revised Calibration Protocol Implementation, Geotagging, Generating Alerts based on Revised OCEMS Alert Protocol etc.; and

WHEREAS, CPCB issued direction dated 23.09.2025 to all SPCBs/PCCs and directed that all the industries, that have installed OCEMS or require to install the same, be directed to register and connect to New OCEMS Portal of CPCB as per the timelines. The industries in Delhi-NCR were required to register & connect to New OCEMS Portal of CPCB by 15.10.2025 and in rest of the country by 15.11.2025 as per the aforesaid directions dated 23.09.2025.

WHEREAS, a team of officials from Central Pollution Control Board inspected M/s Mahou India Private Limited (Distillery Unit), (hereafter referred to as 'the Unit') located at 1038-A, Industrial Area, Chopanki, Bhiwadi, Rajasthan on 12.01.2026. The major observation made by the team are as follows:

1. The Unit was found closed on the day of inspection. Only a guard was available at the Unit Gate during the inspection. It was informed that the Unit is closed from last three years due to management issues.
2. The Unit had connected their OCEMS (for effluent parameters) to CPCB server but not for the emission parameter (i.e. PM) and the OCEMS (effluent) data transmission is offline since Jan 2023. The Unit has not registered & connected its OCEMS to new OCEMS portal (namely ODAMS) of CPCB.

NOW, therefore, in exercise of the powers conferred under Section 18(1) (b) of the Water (Prevention and Control of Pollution) Act, 1974 & the Air (Prevention & Control of Pollution) Act, 1981; the following directions are issued to Rajasthan State Pollution Control Board (RSPCB) for compliance with immediate effect:

1. RSPCB shall direct the Unit to remain closed and revoke the Consent to Operate of the Unit. The Consent shall be issued only after obtaining verification report of the CPCB on connectivity of its OCEMS devices (effluent & emission) to the new OCEMS portal (ODAMS) of CPCB.

The action taken report shall be sent by RSPCB to the CPCB within 15 days from the date of receipt of these directions.
