DRAFT The Union's annual budget for the 2025 financial year

SECTION V

All amounts in this budget document are expressed in euro unless otherwise indicated.

Budgetary remarks are only executable insofar as they do not modify or extend the scope of an existing legal base, impinge on the administrative autonomy of institutions and can be covered by available resources.

EUROPEAN UNION

DRAFT The Union's annual budget for the 2025 financial year

SECTION V
EUROPEAN COURT OF AUDITORS

INTRODUCTION

The introduction to the budget request has been provided by each Institution together with the statement of estimate for its respective budget section. In line with Article 314§1 of the TFEU, which states that: [...] each Institution shall [...] draw up estimates of its expenditure for the following financial year. The Commission shall consolidate these estimates in a draft budget, which may contain different estimates.', the Commission has exceptionally adjusted the estimates of all Institutions. It is thus possible that figures referred to in the introduction of a specific budget section are different from those integrated into the Draft Budget.

I. INTRODUCTION

Mission and vision of the European Court of Auditors

Through our independent, professional and impactful audit work, our mission is to assess the economy, effectiveness, efficiency, legality and regularity of EU action in order to improve accountability, transparency and financial management, thereby enhancing citizens' trust and responding effectively to current and future challenges facing the EU.

We aim to be at the forefront of the public audit profession, and to contribute to a more resilient and sustainable EU that upholds the values on which it is based.

Our audit reports and opinions are an essential element of the EU accountability chain. They are used to hold to account those responsible for implementing EU policies and programmes: the Commission, other EU institutions and bodies, and national administrations. Through our work, we want to help the EU's citizens to understand more clearly how the EU and its member states are meeting current and future challenges.

A series of recent crises have adversely impacted the lives of EU citizens. The European Union and its member states have demonstrated their remarkable ability to respond swiftly and with unprecedented measures. The EU's response to these crises encompasses a range of policies that are supported by a substantial amount of funds available from the traditional EU budget and the recovery funds under the NextGenerationEU (NGEU) initiative.

A significant increase in spending not only presents heightened budgetary risks, but also poses challenges to maintaining sound financial management and ensuring the effectiveness of public intervention. Our 2024+ work programme has been drawn up with all these challenges in mind. In line with our 2021-2025 Strategy, we will address them with a number of audits, among others, focused on:

- digital transformation, artificial intelligence, and labour markets (priority area 'The Union's economic competitiveness');
- aid for migrants and refugees, military mobility, and the rule of law (priority area 'Resilience to threats to the Union's security, and respect for the European values of freedom, democracy and rule of law');
- the development of smart energy networks, climate adaptation, and the LIFE programme (priority area 'Climate change, the environment, and natural resources');
- the Recovery and Resilience Facility (RRF), covering topics such as control systems in member states, and the instrument's green and digital pillars; and
- combating fraud which is our strategic horizontal area.

To meet the expectations of the European Parliament and the Council, the ECA is continuously looking for opportunities to optimise the use of its resources, making savings, increasing efficiency and requesting financing only for justified needs.

The ECA is following a rigorous approach in respect of the administrative expenditure and staffing, while preserving its capacity to attract and retain highly qualified professional staff from within the European Union.

As indicated in the guidelines for the establishment of the budget from Commissioner Hahn (¹) and the Director General (²) of DG BUDG, the Commission invites all Institutions to apply a stable staff policy and to limit the increase for all non-salary related expenditure to a maximum of 2 % compared to the 2024 budget.

The ECA will maintain the substantial savings that have been achieved in the past and strive to achieve new savings in 2025. The 2025 budget includes the necessary appropriations to be able to finance the ECA's daily activities and continuity of services and very few additional necessary projects. Other relevant and essential IT and facilities projects have been identified but not included in the 2025 budget due to budgetary constraints. On this basis, the total amount sought for the 2025 budget represents an overall increase of 3.18 % compared to 2024, mainly explained by the assumptions related to salaries and allowances, the introduction of a temporary housing allowance for staff established in Luxembourg, a project related to the externalisation of part of the security service and the expected level of price indexations for the purchase of goods and services.

The split between salary and non-salary related expenditures is shown in the following table:

(euros)

| | Proposed Budget 2025 | Adopted Budget 2024 | Change in % |
|--------------------------------|----------------------|---------------------|-------------|
| Salary-related expenditure | 153 462 000 | 148 921 360 | 3,05% |
| Members-related expenditure | 12 087 000 | 12 647 000 | -4,43% |
| Non-salary related expenditure | 25 216 000 | 24 087 530 | 4,68% |
| Provisional appropriations | 800 000 | p.m. | |
| Total Budget request | 191 565 000 | 185 655 890 | 3,18% |

With regards to salary-related expenditure, the increase in mainly driven by 2 factors:

- the estimates for salary updates as communicated by the Commission;
- the impact of career progression including promotion and steps.

No additional posts are requested in the establishment plan (total of 882 posts). Taking into account the actual vacancy rate in January 2024, the standard abatement in the DB 2025 is slightly lower than in previous years (at 2.8 % compared to 3.1 % before).

With regards to non-salary related expenditure, the increase compared to 2024 reaches 4.68 %. However, the increase is mainly driven by the impact of the contract for the partial externalisation of security (€500 000). Excluding the impact of this additional element compared to 2024, the increase on non-salary related expenditure amounts to 2.61 % at constant perimeter.

In addition, as per the Commission's guidelines, a separate classification for Members-related expenditure (entitlements on entering and leaving the service, missions, training, and representation expenses) was used in the 2025 budget. The dedicated line "Members-related expenditure" includes both salary and non-salary components. This new mixed presentation leads to an increase to 4.68 % from 2.82 % on non-salary expenditure, as the decreases of appropriations for Members' entitlements on entering and leaving the service, for missions and for training, as well as the stable budget for representation expenses are not reflected anymore in the 2025/2024 global evolution of non-salary related expenditure.

⁽¹⁾ Letter of 21 December 2023 from Commissioner Hahn to President Murphy.

⁽²⁾ Note of 19 December 2023 Establishment of the 2025 Statement of Estimates and Draft Budget (DB).

The 2025 budget includes additional appropriations for the introduction of a temporary housing allowance. Indeed, according to a report ordered by the European Commission in 2019, housing costs in the city of Luxembourg were 52.4 % higher than comparable accommodation in the Brussels area. Since that date, the situation has worsened and the gap between the two cities has increased. This difference results in serious difficulties for the European institutions to recruit staff for their Luxembourg sites, which is an obligation enshrined in the treaties. Other employers present in Luxembourg have already taken into account this situation. As a result, the competitiveness of the European institutions in the Luxembourgish job market is rapidly decreasing.

A temporary housing allowance given only to staff in the lower grades of the salary grid residing in Luxembourg, was suggested as a possible solution that would partially compensate the gap in accommodation costs between the two sites. The working group prepared a draft internal decision that would be adopted by each institution according to their own rules. Pending the finalisation of the applicable legal framework, the related appropriations are of provisional nature and may be used only following the approval of the budgetary authority, within the meaning of Article 49 of Financial Regulation 2018/1046. Accordingly, an amount of €800 000 is recorded under Provisional appropriations (¹). Nevertheless, the most effective solution to this issue would be the introduction of a correction coefficient applicable to all staff of the EU institutions based in Luxembourg.

The present document explains the ECA's estimate of revenue and expenditure for 2025 and, in particular, outlines the changes related to the approved 2024 budget.

1. Adequate resources to meet demands

1.1. Establishment plan

No additional posts are sought for 2025. Therefore, for 2025, the establishment plan totals 882 authorised posts.

1.2. Implications for the standard abatement

The standard abatement has been set at 2.8 % in the draft budget, corresponding to 24.7 vacancies. Any further increase could jeopardise the quantity and quality of the outputs provided by the ECA to the European Parliament and the Council.

II. RECURRENT MATTER

1. Staff matters

1.1. Assumptions in establishing the budget for Members' emoluments and for salaries and allowances of staff

In accordance with the instructions issued by the Commission, the budget for Members' emoluments (Chapter 10) and for the salaries and allowances of permanent and temporary staff (Chapter 12) and other servants (Chapter 14) is based on the following assumptions:

- an adjustment of salaries and allowances of + 5.3 % with effect from 1 July 2024;
- an adjustment of salaries and allowances of + 0.6 % with effect from 1 April 2025;
- an adjustment of salaries and allowances of + 3.7 % with effect from 1 July 2025 payable for six months in 2025.

⁽¹) The European Parliament and the Court of Justice of the European Union followed the same line by recording appropriate amounts in their draft budgets for 2025.

1.2. Additional posts

For 2025, the ECA does not seek additional posts.

1.3. Upgrades of permanent and temporary posts

Article 6, Annex I, Section B of the Staff Regulations, governs the upgrading of posts for career development purposes according to which the institutions are required to ensure that sufficient opportunities for promotion are available to meet pre-defined percentage rates for each grade. To meet this requirement, 2 upgrades are required in 2025, as follows:

| Upgrades from to | Number of permanent posts | Number of temporary posts |
|------------------|---------------------------|---------------------------|
| AST10 to AST11 | 1 | |
| AST7 to AST8 | 1 | |
| Total upgrades | 2 | 0 |

These upgrades do not entitle any individual rights for officials to be promoted, and do not imply any obligation to grant promotions. Promotion decisions are mainly based on merit, as provided for by Article 45 of the Staff Regulations.

1.4. Transformation – permanent and temporary posts

The ECA requests the transformation of four AST7 permanent posts into four AD7 permanent posts to give the opportunity to current AST official, who have acquired the necessary skills and experience and passed the certification procedure, to continue their career in AD function group.

| Transformations from to | Number of posts |
|-------------------------|-----------------|
| AST7 PP to AD7 PP | 4 |

1.5. Evolution of the number of external staff

The number of external staff is similar to the adopted budget 2024. The global overview, including FTEs and related appropriations is summarised in the table below.

The increase in appropriations for external staff is mainly explained by the salary increase and indexation of the hourly rate of *intérimaires* contracts.

| | Voted Bud | lget 2024 | Statement of estimates 2025 | | |
|------------------------------|------------------------|---|-----------------------------|--|--|
| Type of staff | Appropriations (euros) | Estimated number of FTE (*) on the basis of authorised appropriations | Appropriations (euros) | Estimated number of FTE (*) on the basis of requested appropriations | |
| Contractual Agents | 5 957 360 | 80 | 6 185 000 | 85 | |
| Seconded National Experts | 2 468 000 | 36 | 2 311 000 | 31 | |
| Local Agents | n.a. | n.a. | n.a. | n.a. | |
| Interim staff | 264 000 | 6 | 285 000 | 6 | |
| Parliamentary Assistants | n.a. | n.a. | n.a. | n.a. | |
| Total | 8 689 360 | 122 | 8 781 000 | 122 | |

1.6. Number of posts and annual average of Full-Time Equivalent (FTE)

As required by article 41.3.B (III) of the Financial Regulation, the number of posts actually filled on 31 December 2023 is 854. The annual average of full-time equivalents actually in place at ECA for the year 2023 is 828.97. The detailed table can be found in the working documents attached.

2. Mission expenditure

Estimates of needs for missions' appropriations (Article 162) for the forthcoming financial year are drawn up in the preceding year (year n-1). We expect a higher level of missions in 2025. The Court adopts its annual work programme towards the end of the year. When preparing its draft budget, the Court has only the results of its multi-annual work programming exercise, carried out in October of year n-2, as a basis for estimating its needs.

The ECA takes all possible measures to ensure that mission appropriations are used with the strictest respect for the principles of economy, efficiency and effectiveness. Even if it cannot predict its needs accurately, the ECA does ensure that the appropriations that are used provide good value for money. For the 2025 budget, the ECA requests an increase compared to 2024, i.e. an amount of \le 2 748 000 will be dedicated to the mission audit works and support activities. The amount also includes a higher management fee for the travel agency following the new interinstitutional contract in force from 2024 and anticipates an increase in the costs and number of staff missions.

3. Commission services

Following the agreement on the 'Regulation of the European Parliament and of the Council laying down measures for a high common level of cybersecurity at the institutions, bodies, offices and agencies of the Union' (¹), the Commission indicated that the institutions are expected to transfer human and budgetary resources to CERT-EU, to allow CERT-EU to deliver on the new tasks and increased requirements outlined in the Regulation. At the moment of the establishment of this estimate, the proposed final burden-sharing breakdown by institution — both as regards staff and budget appropriations — which should be communicated by the Commission was not yet available, and therefore is not included in the 2025 budget.

III. SUPPORTING INFORMATION

The following annexes are attached in support of the ECA's 2025 budget request:

Annex I: Statement of policy for permanent and temporary staff

Annex II: Explanations for budget lines with increases and decreases

Annex III: Allocation of resources per activities

1. Annex I – Statement of policy for permanent and temporary staff as required under Article 41 of the Financial Regulation

The primary aim of the European Court of Auditors is to carry out its core activity as defined in Article 287 of the Treaty on the Functioning of the European Union.

To this end, the ECA has sought and obtained from the European Parliament and the Council permanent and temporary posts. Its requests for posts are based upon the best possible assessments of the minimum resources necessary to fulfil its treaty obligations economically, efficiently and effectively, and thus to meet the reasoned needs of the European Parliament and the Council and of other users of the ECA's outputs.

Having obtained the posts that the ECA thus identifies as necessary, the ECA seeks to recruit suitably qualified and experienced staff to fill them, taking into account the diverse cultural, linguistic and professional differences within the EU. Furthermore, it operates a human resources policy aiming to develop recognised expertise in financial, compliance and performance audit, providing career opportunities and developing the skills of staff, supporting knowledge sharing and exchange with SAIs and other professionals, academia and think-tanks, and fine-tune task-based organisation structure to enhance the ECA's overall efficiency and flexibility.

This policy is periodically reviewed and enhanced to encourage staff to perform at their best. The ECA aims to retain a high proportion of its staff on a long-term basis, and to assist any staff who are identified as not performing to expected levels to overcome any problems they are encountering.

The ECA has encountered problems in recruiting and retaining professional staff in recent years. To overcome these problems and prevent a reoccurrence in the future, a series of measures have been taken, such as:

- complementary training for recruits and the inclusion of initial training and work experience within a managed structure of career-long professional development;
- careful attention to ensure that career development prospects at the ECA are at least equal to those in other institutions, most notably through the upgrading of posts as necessary, in accordance with the provisions of the Staff Regulations;
- a system of staff evaluation that assesses performance against clear objectives, including objectives related to professional development;
- attention to the working environment and to related social infrastructures in an attempt to counteract the "Brussels" effect the cheaper living costs and perceived better lifestyle available for young staff in Brussels compared to Luxembourg.

When members of staff decide to leave the ECA to follow a career in another institution, the ECA considers that, on a global basis, such mobility has the potential to add overall value to the European Union's financial management, as long as the rate of turnover of ECA staff is sustainable.

The ECA strives to be an equal opportunities employer at all stages of its staff's careers. A number of actions have been implemented in recent years in order to make sure that everyone in our institution has equal opportunity to use their talents and develop their potential, thus contributing to the achievement of the institution's goals.
