Graphical Illustration of MALTA by NUTS Classification

Statistical Regions and Districts of MALTA

The Nomenclature of Territorial Units for Statistics (NUTS) is a hierarchical classification which divides the economic territory of the European Union for the purpose of producing regional statistics that are comparable across the European Union (NUTS levels 1-3). To meet the demand for statistics at a local level, Eurostat has created a system of Local Administrative Units (LAUs) that is compatible with NUTS.

NUTS 1 MALTA

NUTS 2 MALTA

NUTS 3 Malta Region
Gozo and Comino Region

LAU 1

LAU 2

Southern Harbour	Cospicua; Fgura; Floriana; �al Luqa; �a�-�abbar; Kalkara; Marsa; Paola; Santa Lu�ija; Senglea; �al Tarxien; Valletta; Vittoriosa; Xg�ajra.
Northern Harbour	Birkirkara; G�ira; �al Qormi; �amrun; Msida; Pembroke; San �wann; Santa Venera; St Julian's; Swieqi; Ta' Xbiex; Tal-Piet�; Tas-Sliema.
South Eastern	Bir�ebbu�a; Gudja; �al ��axaq; �al Kirkop; �al Safi; Marsaskala; Marsaxlokk; Mqabba; Qrendi; �ejtun; �urrieq.
Western	�ad-Dingli; �al Balzan; �al Lija; �'Attard; �a�-�ebbu�; Iklin; Mdina; Mtarfa; Rabat; Si��iewi.
Northern	�al ��ar��ur; Mellie�a; M�arr; Mosta; Naxxar; St Paul's Bay.
Gozo and Comino	Fontana; ��ajnsielem; ��arb; ��asri; Munxar; Nadur; Qala; San Lawrenz; Ta' Ker�em; Ta' Sannat; Victoria; Xag�ra; Xewkija; �ebbu�.

NUTS divides MALTA into two regions:

1. Malta
2. Gozo and Comino.

LAU 1 divides MALTA into six districts and LAU 2 into 68 localities.

Acknowledgements

Thanks are due to all NSO units and organisations which contributed valuable information for inclusion in this publication. The work and timely co-operation of individual members of such units and organisations are gratefully acknowledged. In certain cases, the NSO undertook estimations on the basis of received basic data. This is indicated in the relevant tables.

This publication was compiled by the Regional Statistics Unit, while editing and desktop support was provided by the External Cooperation and Communication Unit. The valid contribution of the members of these units is highly commendable.

1. Demography

1.1	Total population by region, age group and sex: 2013	3
1.2	Total population of Gozo and Comino by locality and year	3
1.3	Total registered live births by parents' region/district of residence and year	4
1.4	Deaths by region/district of residence and year	4
1.5	Registered marriages by region, year and type	4

2. Household Characteristics

2.1	Distribution of households by region/district and year	11
2.2	Number of households by region/district, selected years and household size	11
2.3	Number of persons living in households by region/district, year and sex	12
2.4	Distribution of household disposable income by region/district and year	13
2.5	Persons at-risk-of-poverty by region/district and year	13

3. Education

3.1	Gozo resident student population by scholastic/academic year and educational level	19
3.2	An overview of primary education in Gozo	20
3.3	Students attending state primary schools in Gozo by scholastic year and locality of school	20
3.4	An overview of secondary education in Gozo	21
3.5	An overview of post-secondary education in Gozo	22

	Page
3.6 Gozo residents in vocational education in Gozo by academic year and MQF level	23
3.7 Gozo residents in vocational education in Malta by academic year and MQF level	24
3.8 Vocational education graduates by academic year and region/district of residence	25
3.9 Vocational education graduates among Gozo residents by academic year and locality of residence	25
3.10 Vocational education graduates among Gozo residents by academic year and MQF level	26
3.11 Gozo residents following UoM courses on a full-time basis by academic year and locality of residence	26
3.12 Gozo residents following UoM courses on a full-time basis by academic year and MQF level	27
3.13 Gozo residents following UoM courses on a full-time basis by academic year and year of course	28
3.14 Gozo residents following UoM courses on a part-time basis by academic year and MQF level	29
3.15 Gozo residents following UoM courses on a part-time basis by academic year and year of course	30
3.16 Gozo residents following UoM courses on full-time and part-time basis by academic year and field of study	31
3.17 UoM graduates by academic year and region/district of residence	31
3.18 UoM graduates per 1,000 population	32
3.19 Gozo resident UoM graduates by academic year and locality of residence	32
3.20 Gozo resident UoM graduates by academic year and MQF level	33
3.21 MCAST graduates per 1,000 population	33
3.22 Total graduates per 1,000 population by academic year	34

4. Employment

4.1	Full-time gainfully occupied population by region, year and sector	45
4.2	Full-time gainfully occupied population by region, year and professional status	46
4.3	Part-time gainfully occupied population by region, year, job type and sex	47
4.4	Employment and unemployment aggregates by region and year	48
4.5	Employees' average gross annual salary by region of residence, year and sex	49

5. Business Demography

5.1	Structure of units by region, year and type of legal organisation	57
5.2	Structure of units by region, year and employment size	58
5.3	Births of business units by region and year	59
5.4	Deaths of business units by region and year	59

6. The Economy

6.1	Gross Domestic Product (GDP) at market prices by region and year	63
6.2	Gross Value Added (GVA) at basic prices (B.1g) by industry, region and year	64
6.3	Contribution of regional GVA (B.1g) to total GVA by industry, region and year	65

7. Land and Sea Transport

7.1	Road traffic accidents by region/district and year	71
7.2	Road traffic casualties by region/district and year	71
7.3	Total injuries sustained in road traffic accidents by region/district and selected years	72

	Page
7.4 Injuries sustained by drivers in road traffic accidents by region/district and selected years	73
7.5 Injuries sustained by passengers in road traffic accidents by region/district and selected years	74
7.6 Injuries sustained by pedestrians in road traffic accidents by region/district and selected years	75
7.7 Stock of licensed vehicles by vehicle group and district: 2014	76
7.8 Quarterly sea transport between Malta and Gozo	77
7.9 Sea transport from Mgarr by day of the week	78
7.10 Sea transport from Ċirkewwa by day of the week	79
7.11 Yacht marinas/mooring areas in Malta and Gozo: 2014	80
 8. Tourism	
8.1 Total arrivals in collective accommodation by region, year and type of accommodation	87
8.2 Non-resident arrivals in collective accommodation by region, year and type of accommodation	88
8.3 Resident arrivals in collective accommodation by region, year and type of accommodation	89
8.4 Total nights spent in collective accommodation by region, year and type of accommodation	90
8.5 Non-resident nights spent in collective accommodation by region, year and type of accommodation	91
8.6 Resident nights spent in collective accommodation by region, year and type of accommodation	92
8.7 Average length of stay in collective accommodation by type of accommodation, year and type of tourist: MALTA	93
8.8 Average length of stay in collective accommodation by type of accommodation, year and type of tourist: Malta	94
8.9 Average length of stay in collective accommodation by type of accommodation, year and type of tourist: Gozo and Comino	95

8.12 Net use of bed-places in collective accommodation by type of accommodation, year and type of tourist: Gozo and Comino	98
8.13 Collective accommodation establishments by region, year and type of accommodation	99
8.14 Net number of bed-places in collective accommodation establishments by region, year and type of accommodation	100
8.15 Total arrivals in collective accommodation by region/district, year and type of tourist	101
8.16 Nights spent in collective accommodation by region/district, year and type of tourist	102
8.17 Average length of stay in collective accommodation by region/district, year and type of tourist	103
8.18 Net use of bed-places in collective accommodation by region/district, year and type of tourist	104
8.19 Net use of bedrooms in collective accommodation by region/district, year and type of tourist	105
8.20 Collective accommodation establishments, net number of bedrooms and bed-places by region/district and year	106
8.21 Profile of inbound tourists to Gozo and Comino	107
8.22 Profile of tourist accommodation in Gozo and Comino	108
8.23 Profile of inbound tourist nights spent in Gozo and Comino	109
8.24 Inbound tourists to Gozo and Comino as a single-centre destination by age group and year	109
8.25 Profile of same-day visitors to Gozo and Comino	110
8.26 Profile of the cruise liner industry in Gozo and Comino	111
8.27 Catering outlets in Gozo and Comino by year and type of outlet	112

9. Renewable Energy Harvesting

9.1	Stock of PV installations by region/district and year	131
9.2	Stock of PV installations by region/district, year and sector	132
9.3	Total kWp of connected PVs by region/district, year and sector	133
9.4	Estimated total kWh produced by connected PVs by region/district and year	134

10. Rural and Urban

10.1	Cultivated land by region and selected years	141
10.2	Distribution of arable land by region and type: 2013	141
10.3	Distribution of land under permanent crops by region and type of crop: 2013	141
10.4	Volume and wholesale value of agricultural produce sold through official markets by region and year	142
10.5	Heads of livestock by region and year	143
10.6	Livestock farms by region and year	143
10.7	Volume of fish landings by region and year	144
10.8	Value of fish landings by region and year	145
10.9	Fishing vessels by region, year and type	146
10.10	Fishing vessels by region, year and type of licence	146

11. Social Protection

11.1	Claimants for injury benefits by region/district of enterprise and sex: 2014	153
11.2	Claimants for injury benefits by district of enterprise and age group: 2014	153
11.3	Claimants for injury benefits by district of enterprise and economic activity: 2014	154
11.4	Social protection beneficiaries by region, year and type of benefit	155

12. Water and Waste

12.1	Public water production and consumption by region and year	159
12.2	Collected waste reported by the Gozo Waste Transfer Station by description and year	160
12.3	Collected waste reported by the Gozo Waste Transfer Station by type, year and provenience	160
12.4	Recyclable waste reported by the Gozo Waste Transfer Station by detailed type, year and provenience	161
12.5	Collected waste reported by Tal-Kus Civic Amenity Site by waste stream and year	162
12.6	Electric and electronic equipment waste disposed at Tal-Kus Civic Amenity Site by category and year	163

8.23 Same-day visitors to Gozo and Comino by mode and type of travel to MALTA and year	124
8.24 Same-day visitors to Gozo and Comino by organisation of stay and year	124
8.25 Distribution of bedstock by type of accommodation in Gozo and Comino: 2014	125
8.26 Catering outlets in Gozo and Comino: 2014	125
8.27 Bed-places in self-catering establishments in Gozo and Comino by locality: 2014	126

9. Renewable Energy Harvesting

9.1 Stock of PV installations by district and year	135
9.2 Stock of PV installations by sector and year	135
9.3 Total kWp of connected PVs by sector and year	136
9.4 Distribution of total kWp of connected PVs by district and sector: 2014	136
9.5 Total PVs installed in the domestic sector per 1,000 residents: 2014	137
9.6 Estimated output of connected PVs by district and year	137

10. Rural and Urban

10.1	Distribution of arable land: 2013	147
10.2	Distribution of livestock heads by region and selected years	147
10.3	Distribution of livestock farms by region and selected years	148
10.4	Distribution of fish landings by region and selected years	148

12. Water and Waste

12.1	Water consumption by region and year	164
12.2	Monthly water consumption by region and year	164
12.3	Waste collected at the Gozo Waste Transfer Station by EWC chapter: 2014	165
12.4	Distribution of waste collected at the Gozo Waste Transfer Station by type and year	165
12.5	Distribution of waste collected at the Gozo Waste Transfer Station by provenience and year	166
12.6	Collected waste reported at the Gozo Waste Transfer Station by month	166

Foreword

Gozo in Figures 2015 is being published by the NSO one year after the setting up of the Regional Statistics Unit in Gozo under the auspices of the Malta Statistics Authority. It is, in fact, a sequel to two similar collections published in previous years. That said, this year's edition is amply enhanced in various ways. Data is presented on 12 important statistical domains. Two new topics are Education and Renewable Energy Harvesting, while first-time perspectives on a district basis in the field of Tourism give rise to noteworthy insights regarding the current state of this industry not only in Gozo, but also in Malta. Another improvement is the increased presence of graphically illustrated data by way of a profusion of informative charts, including maps.

One objective of the NSO in releasing data in one compact publication is to provide a handy statistical aid. In this regard, the publication is organised in such a way as to provide a useful tool to the Office's range of users, among them, policy makers, academics, the media, researchers, students, and the wider public. The longitudinal and spatial illustration of data is instrumental in indicating the socio-economic and environmental specificities across regions, districts and localities.

Reuben Fenech
Director General

September 2015

Methodological Notes

1. Population figures were revised following the results of the Census of Population and Housing 2011, and are in line with the 'usual residence' definition.

2. Definitions:

- **Usual residence:** refers to the place where a person normally spends the daily period of rest, regardless of temporary absences for purposes of recreation, holidays, visits to friends and relatives, business, medical treatment or religious pilgrimage. The following persons alone shall be considered to be usual residents of a specific geographical area:
 - those who have lived in their place of usual residence for a continuous period of at least 12 months before the reference time; or
 - those who arrived in their place of usual residence during the 12 months before the reference time with the intention of staying there for at least one year.
- **Total live births:** include all babies born and registered with the Public Authorities in Malta and Gozo. Still births are excluded.
- **Deaths:** all registered deaths of residents in Malta and Gozo. The definition includes residents of Malta who die abroad.
- **Marriages:** marriages registered in Malta and Gozo, including marriages between non-resident foreign spouses.
- **Civil marriages:** non-religious marriages that are recognised by law in MALTA.

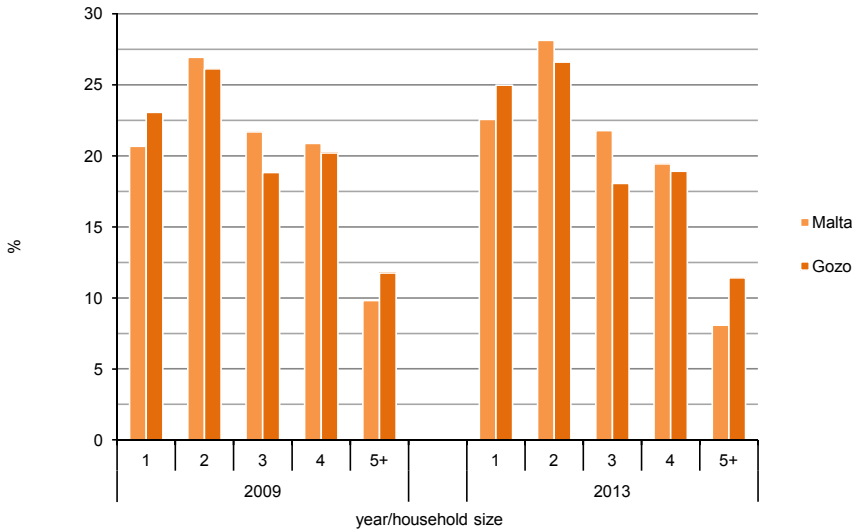

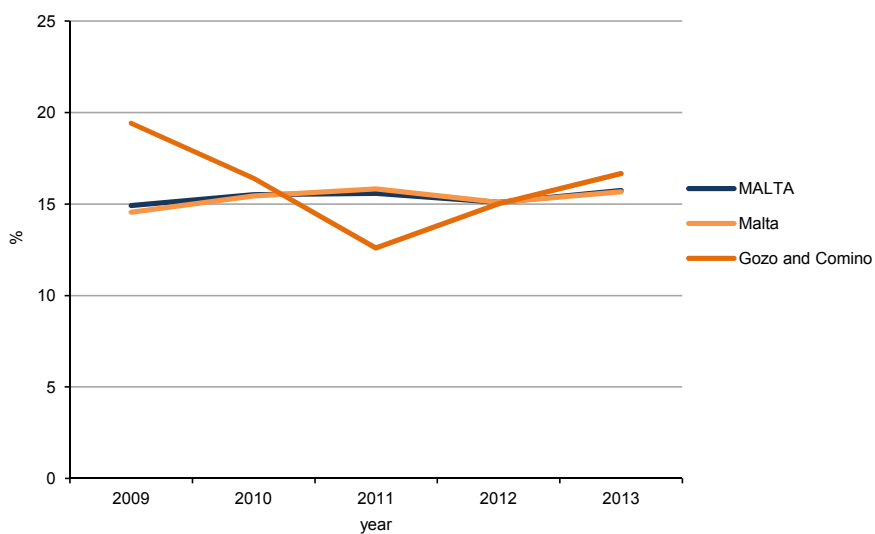

Chart 2.3 At-risk-of-poverty rates by region and year

Methodological Notes

1. Statistics on Income and Living Conditions (SILC) constitute the output of an annual enquiry carried out by the NSO among private households. SILC is carried out by all EU Member States and is covered by a European framework regulation. The main scope of SILC is the compilation of statistics on income distribution, monetary poverty, social exclusion and material deprivation.

2. Definitions:

- **Equivalent household size:** this is calculated according to the 'modified OECD' equivalence scale which gives:
 - a weight of 1.0 to the first adult;
 - a weight of 0.5 to any other household member aged 14+;
 - a weight of 0.3 to each child.

The resulting figure, which is the sum of these weights, is attributed to each member of the household.

- **Equivalised disposable income:** also known as 'national equivalised income'. It is the household's total disposable income divided by its 'equivalent size', to take account of the size and composition of the household, and is attributed to each household member. For example, a household with two adults and two children aged less than 14, would have an equivalised household size of $(1+0.5+0.3+0.3=) 2.1$. If the total disposable income earned by the household is €20,000, the household equivalised income would result as $(€20,000/2.1=)$ €9,524.
- **At-risk-of-poverty threshold:** also known as 'at-risk-of-poverty line' or 'poverty line'. This is equivalent to 60 per cent of the median national equivalised income of persons living in private households.
- **At-risk-of-poverty rate:** the share of persons with an equivalised disposable income below the at-risk-of-poverty threshold.

Methodological Notes

1. Data collection in respect of Education Statistics is carried out during the second quarter of the academic year. Therefore, unless stated otherwise, the reference period for the information provided in this publication is end of March.
2. Vocational Education programmes are designed for learners to acquire the knowledge, skills and competencies specific to a particular occupation, trade or class of occupations or trades. Such programmes may have work-based components, and their successful completion leads to labour market-relevant vocational qualifications acknowledged to be occupationally oriented by the relevant national authorities and/or the labour market. The vocational institutions whose data is included in this publication are the Malta College of Arts, Science and Technology (MCAST) and the Institute of Tourism Studies (ITS).
3. The level descriptors of the Malta Qualifications Framework (MQF) were originally introduced by Legal Notice 347 of 2005. These represent neutral reference points to be used for all qualifications, be they academic, vocational, formal, informal and non-formal. The level descriptors are useful for education and training providers, and for employers.

The Malta Qualifications Framework is structured as follows:

Level	Descriptor
MQF level 8	Doctoral (PhD) Degree
MQF level 7	Master's Degree; Postgraduate Diploma; Postgraduate Certificate
MQF level 6	Bachelor's Degree
MQF level 5	Undergraduate Diploma; Undergraduate Certificate; Higher Education Certificate
MQF level 4	Matriculation Certificate; Advanced Level; Intermediate Level
MQF level 3	General Education - Level 3 - SEC Grade 1-5
MQF level 2	General Education - Level 2 - SEC Grade 6-7; Secondary School Certificate and Profile (B)
MQF level 1	General Education - Level 1 - Secondary School Certificate and Profile (A)

Methodological Notes

1. Employment and Training Corporation (ETC) data in Tables 4.1-4.4 is in line with NSO News Release No. 154/2015.
2. **Definitions:**
 - **Registered unemployment rate:** this is worked out by taking into account the number of registered unemployed persons under Part I and Part II of the register, as a percentage of the sum of full-time gainfully occupied and registered unemployed persons. This data is based on the administrative records of the Employment and Training Corporation (ETC).
 - **Labour Supply/Labour Force:** the sum of full-time gainfully occupied and registered unemployed persons. The definition excludes part-time employment. This data is based on the administrative records of the Employment and Training Corporation (ETC).
 - **Average gross annual salary:** the annual basic salary received by employees before any social contributions and tax deductions. This amount excludes payments for overtime, allowances and bonuses. This statistic emanates from the Labour Force Survey (LFS), an enquiry which is carried out by the NSO on an ongoing basis using a quarterly gross sample of 3,200 private households.
3. Data may be subject to revisions by ETC.

Notes:

1. Units are classified by region according to their registered address.
2. For comparability of data, see methodological notes.

Source: NSO Business Register.

Methodological Notes

1. The Business Register (BR) is administered by the NSO. It provides one of the most detailed local business profiles in Malta. It is classified by economic activity according to the NACE (Nomenclature Statistique des Activités Économiques dans la Communauté Européenne) . The scope and nature of the BR is the basis on which sample surveys with regard to business are conducted. Furthermore, the BR can be used as a source of statistics in its own right.
2. Births and Deaths record the demographic change in the number of units, i.e. registrations and/or deregistrations, and do not precisely record commencement or cessation of an activity by a unit. Business demographic events such as takeovers, mergers and split-offs are not catered for and may affect the data. The recorded births and deaths from 2011 onwards are affected by Legal Notice 524 of 2010.

On 1 January 2011, the Value Added Tax (Exemption from Registration) Regulations 2010 came into force, as notified in the above Legal Notice. The Regulations state that the VAT Commissioner shall not register any taxable person established in Malta whose turnover does not exceed €7,000 in a calendar year. Therefore business demographics from 2011 onwards may not be strictly comparable to those of previous years and should be treated with caution.

3. Employment size is classified as follows:

Size Class	Persons employed
Micro	0-9
Small	10-49
Medium	50-249
Large	250+

4. Data is subject to updates to the BR, which are ongoing.

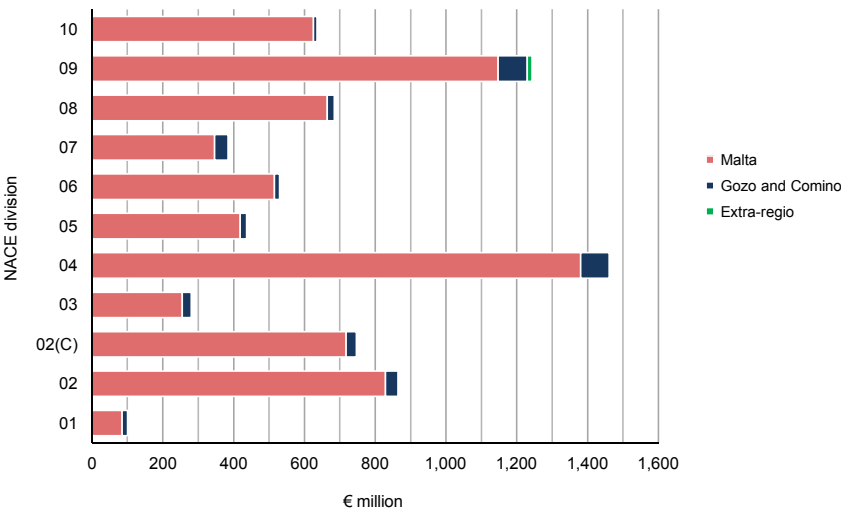

Chart 6.2 Distribution of regional GVA (B.1g) by industry (A10): 2013

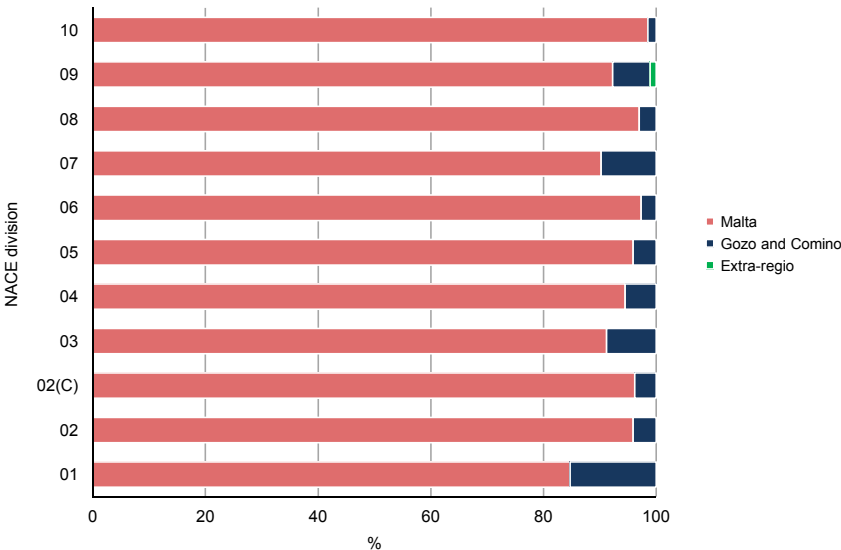

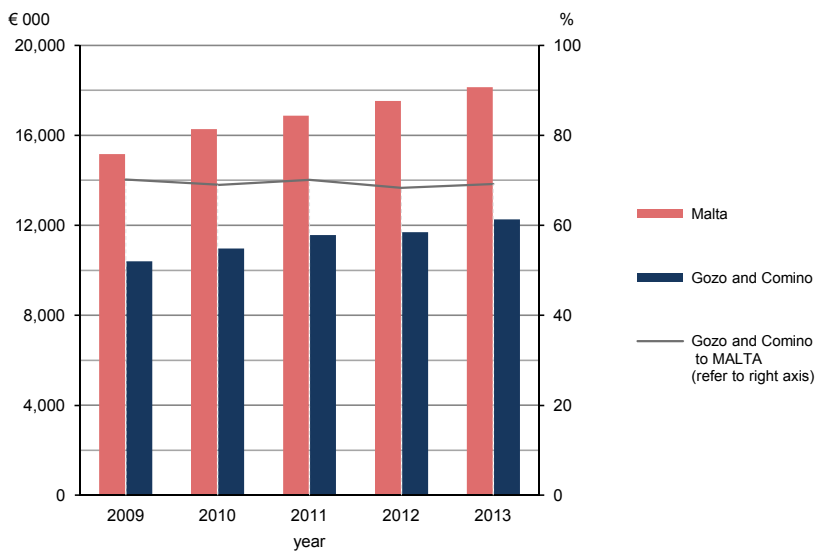

Chart 6.3 Per capita regional GDP at market prices by year

Methodological Notes

1. Data is in line with the European System of Accounts (ESA 2010) (ISBN 978-92-79-31242-7) and the manual on Regional Accounts Methods (ISBN 978-92-79-32357-7). The European System of National and Regional Accounts is an internationally compatible accounting framework for a systematic and detailed description of a total economy (whether this is a region, a country, or a group of countries), its components, and its relations with other total economies. Regional accounts are a regional specification of the corresponding accounts of the total economy.
2. The nomenclature of territorial units for statistics (NUTS) provides a single, uniform breakdown of the economic territory of the European Union. This classification is used in the compilation of regional accounts. The economic territory of a country can be divided into regional territories and extra-regio territory. For the purpose of regional accounts, Malta is divided as follows:

	NUTS 0	NUTS 1	NUTS 2	NUTS 3
MALTA	MT			
MALTA		MT0		
MALTA			MT00	
Malta				<i>MT001</i>
Gozo and Comino				<i>MT002</i>
Extra-regio		MTZ		
Extra-regio			MTZZ	
Extra-regio				<i>MTZZZ</i>

3. Gross Value Added (GVA) is presented at A10. The national estimates were revised in line with NSO News Release No. 195/2014 for 2000 to 2010, and with NSO News Release No. 232/2014 for 2011 to 2013. Employment data provided by the Employment and Training Corporation (ETC) for 2011-2012 was also subject to revision.
4. Data users should be aware that the industrial activities of General Government are spread over 19 different NACE categories (at A88 division) and include local councils and extra-budgetary units that are financially dependent on Government. NACE 84 is the largest category and, in terms of Gross Value Added, represented approximately 35.3 per cent of the General Government sector in 2013.
5. **Definitions:**
 - **Gross Domestic Product (GDP):** an estimate of the value of goods and services produced in the economy over a period of time. GDP is estimated at current prices using the Production Approach, aggregating the output of the various productive sectors net of the cost of intermediate inputs.
 - **The regional territory:** refers to the region that is part of a country's geographic territory, and to any free zones such as bonded warehouses and factories under customs control in the region.
 - **Extra-regio:** refers to parts of a country's economic territory that cannot be attached directly to a single region. Such parts may include embassies, consulates, military bases, scientific bases and others.

Chart 7.1 Scheduled sea transport between Malta and Gozo by day of the week

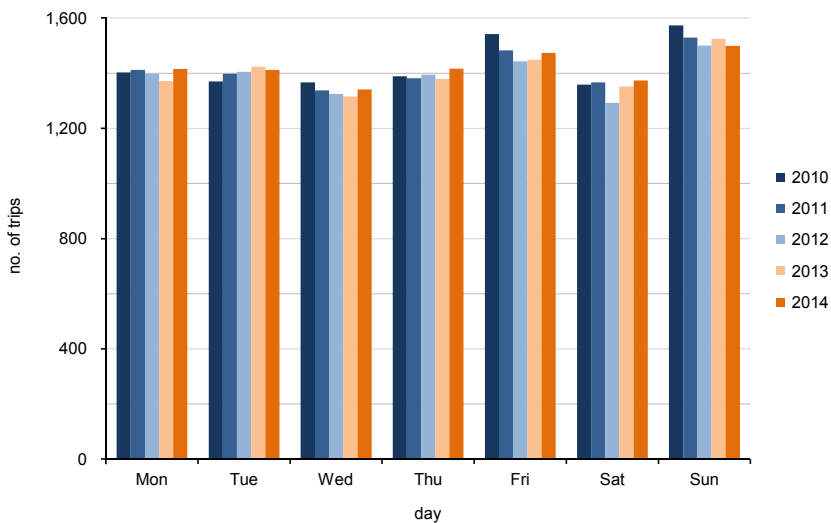

Chart 7.2 Vehicle crossings between Malta and Gozo by day of the week and terminal

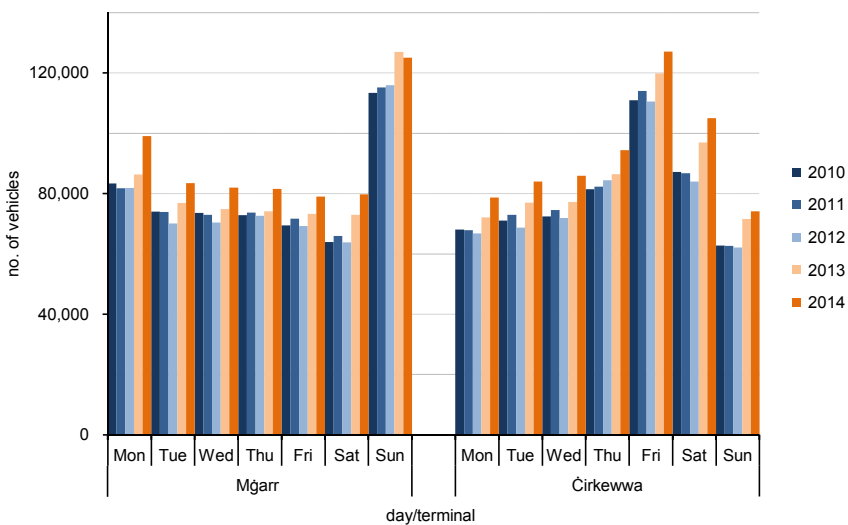

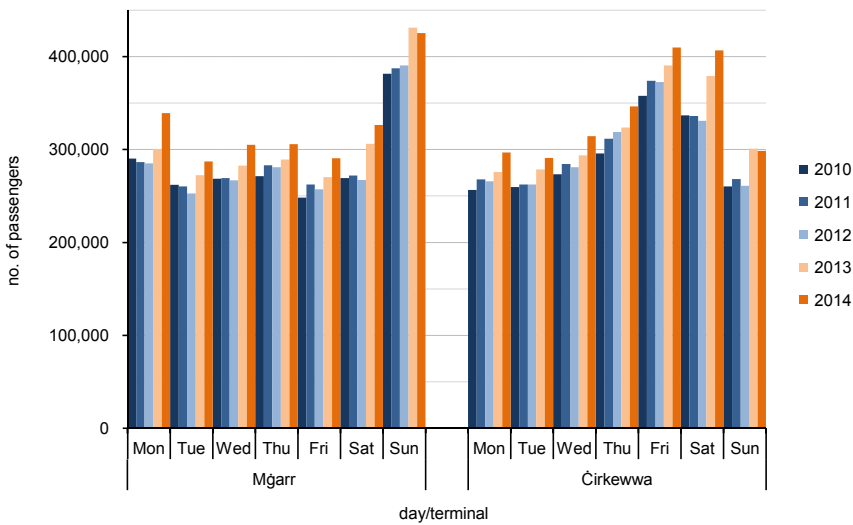

Chart 7.3 Passenger movements between Malta and Gozo by day of the week and terminal

Methodological Notes

Traffic accidents and injuries

1. The type of casualty (slight or grievous) is determined by the Health Department. The definitions of deaths caused by road accidents refer to the European Conference for Ministers of Transport (ECMT) and United Nations Economic Commission for Europe (UNECE).
2. Minor traffic accidents which are not reported, i.e. no police or traffic wardens are called on the accident scene, are not accounted for.
3. A fatal injury is defined by UNECE as "Any person who was killed outright or who died within 30 days as a result of the accident".

Sea Transport between Malta and Gozo

4. Passenger data comprises foot passengers, vehicle passengers and drivers.
5. The vehicle and passenger capacity of each Gozo Channel vessel is shown below:

Vessel	Vehicles	Passengers
MV Gaudos	72	900
MV Malita	138	900
MV Ta' Pinu	138	900

Methodological Notes

Collective Accommodation Establishments Survey (Accomstat)

1. The objective of this monthly survey is to estimate the utilisation rate of bed-places in all active collective accommodation in Malta and Gozo. The variables include:
 - Number of residents;
 - Number of non-residents;
 - Nights spent by residents;
 - Nights spent by non-residents;
 - Number of room nights sold to foreign residents;
 - Number of room nights sold to Maltese residents;
 - Number of bedrooms;
 - Number of bed-places;
 - Number of days the establishment was closed during the reference month.
2. The Malta Tourism Authority (MTA) licensing Department reclassified all collective accommodation establishments registered as aparthotels to hotels (refer to Legal Notice 351 of 2012).
3. **Definitions:**
 - **Non-residents:** foreigners who do not necessarily follow the definition of a tourist and check into/out of a collective accommodation establishment.
 - **Residents:** Maltese/Gozitan residents who check into/out of a collective accommodation establishment.
 - **Total arrivals:** the sum of residents and non-residents.
 - **Total nights:** nights which a guest actually spends or is registered to spend in a collective accommodation establishment.
 - **Average length of stay:** the number of nights spent divided by the number of arrivals during a specified reference period.
 - **Net use of bed-places:** the net occupancy rate calculated for all active accommodation establishments, net of seasonal closures and other temporary closures. The occupancy of bed-places is calculated by dividing the total nights by the number of bed-places available for use during the reference period. The result is then multiplied by 100 to express the occupancy rate as a percentage.
 - **Net use of bedrooms:** the net occupancy rate calculated for all active accommodation establishments, net of seasonal closures and other temporary closures. The occupancy of bedrooms is calculated by dividing the total number of bedrooms used by the total number of bedrooms available for use during the reference period. The result is then multiplied by 100 to express the occupancy rate as a percentage.

Inbound Tourism Survey (Tourstat)

4. Tourstat measures the number of tourist trips carried out during a reference month. 'Tourist trips' differs from 'number of tourists' in that the same person can undertake more than one trip during a reference period.

5. Tourist air departures are collected through a continuous survey carried out at the departure lounge of the Malta International Airport (MIA). Personal interviews are carried out. A two-stage sampling design is used to survey air passengers. In the first stage alternate days are selected. Then, within each shift, a sample of passengers is selected systematically.
6. Tourist sea departures are collected through a regular survey carried out at the Valletta Cruise Port during three separate months every year. A quota sample is used. Survey data is supplemented by administrative data provided by ferry operators.

7. Definitions:

- **Inbound Tourism:** the activities of non-resident visitors travelling to Malta (i.e. outside their usual environment), and staying for not more than 12 consecutive months for leisure, business or other purpose. The number of inbound tourists cannot be equated to monthly passenger data released by the MIA because the latter includes departing Maltese and transit passengers.
- **Tourist:** a visitor who stays at least one night in collective or private accommodation in the country/place visited.
- **Visitor:** a domestic or international tourist or same-day visitor. A visitor can be distinguished from a traveller by three main criteria:
 - The place visited is outside the usual environment;
 - The visit does not last for more than 12 consecutive months;
 - The visit's main purpose excludes an activity that is remunerated from the place visited.
- **Same-day visitor:** a visitor who does not spend the night in collective/private accommodation in the country/place visited.

Cruise Passengers

8. The majority of passengers embarking on cruise liners from Malta generally end their trip at the same destination. Therefore embarkations are not included in cruise traffic figures to avoid double counting.
9. Cruise liners calling at both Malta and Gozo during a single voyage are recorded as one liner call.
10. **Definitions:**
 - **Embarkations:** Maltese cruise passengers, and foreign cruise passengers who arrive in Malta by another means of transport.
 - **Transit passengers:** cruise passengers who arrive in/leave Malta on the same cruise ship.
 - **Landings:** cruise passengers who arrive in Malta on a cruise ship and leave by another means of transport or stay in Malta.

Malta Tourism Authority (MTA) Register

11. Definitions:

- **Farmhouse:** holiday premises which are constructed and finished to represent a typical Maltese farmhouse located in an area that is compatible with a farmhouse environment.
- **Holiday premises:** comprises apartments, studios, villas, maisonettes, townhouses, terraced houses and other accommodation, in line with the meaning assigned to such premises in the Malta Travel and Tourism Services Act.

Gozo and Comino	48,066	562,567	1,991,714	4,106,506	9,742,696

Notes:

1. Actual output for 2012 and 2013 (MALTA) was reported by ARMS Ltd.
2. Estimated output for 2010, 2011 and 2014 (MALTA) was based on the relation between actual data (kWh) reported by ARMS Ltd. in 2012 and 2013 and the kWp installations for these two years. The connection month and monthly performance levels of a PV system were taken into consideration.
3. District output was estimated on the basis of the connection month and the corresponding kWp.

Source: NSO estimates based on actual data provided by Malta Resources Authority (MRA) and ARMS Ltd.

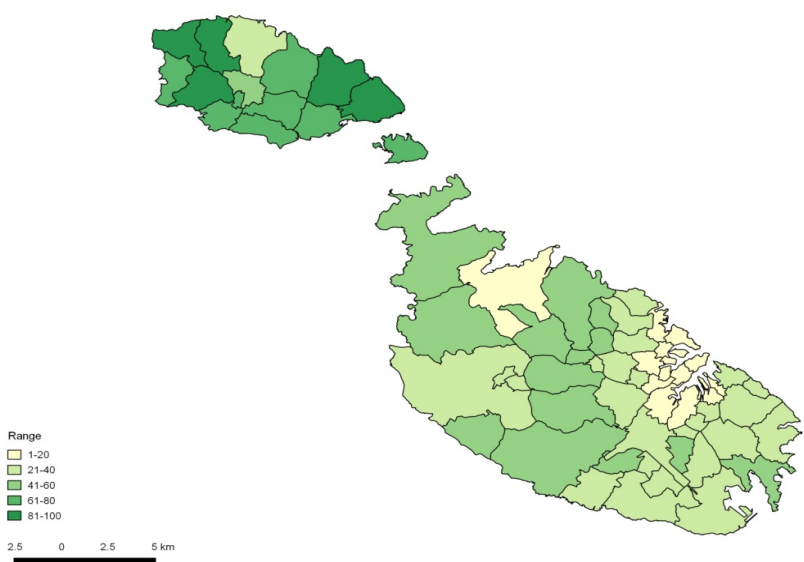

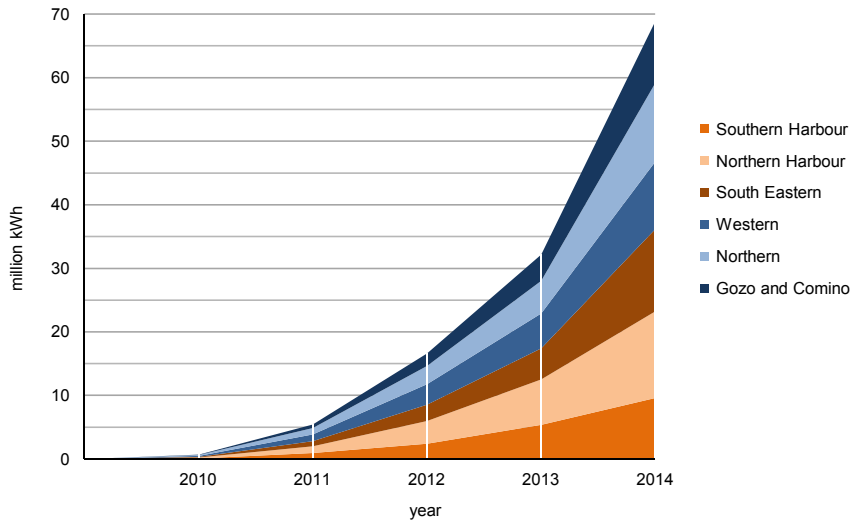

Chart 9.6 Estimated output of connected PVs by district and year

Methodological Notes

1. Commercial sector includes industry.
2. Public sector includes buildings pertaining to government departments and entities, and institutional households.
3. Data is provisional and subject to revision.
4. **Definitions:**
 - **Photovoltaic (PV) system:** A complete set of components for converting solar radiation into electricity by the photovoltaic process, including the array/s of photovoltaic modules that collect and absorb sunlight for conversion into electricity, inverter/s and associated balance of system components.
 - **kWh:** kilowatt hour - a unit of energy equal to 1,000 watt-hours. It is normally used as a billing unit for energy delivered to consumers by electricity providers.
 - **kWp:** kilowatt peak - in the solar industry, kilowatt peak means the peak power rating of a panel.

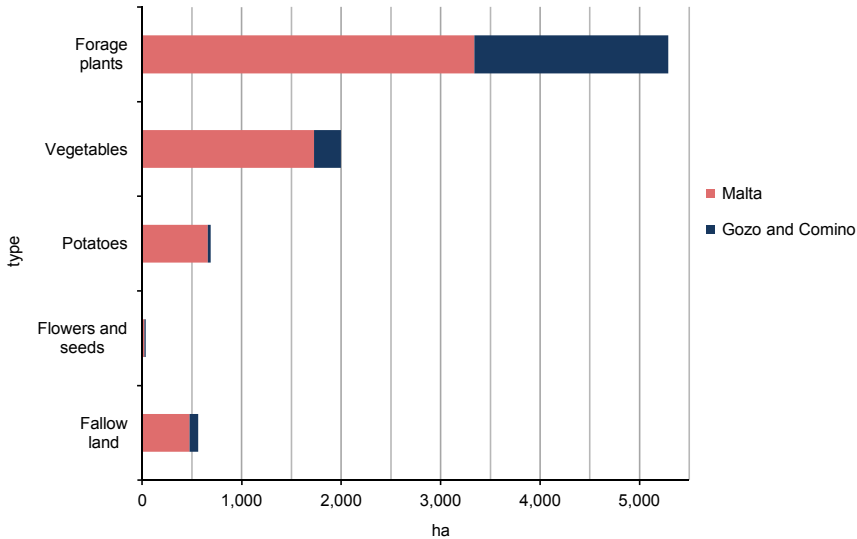

Chart 10.2 Distribution of livestock heads by region and selected years

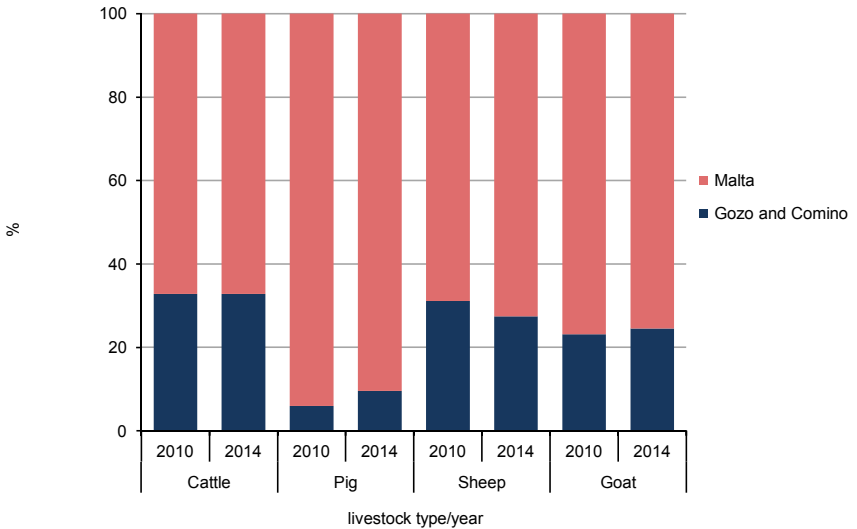

Chart 10.3 Distribution of livestock farms by region and selected years

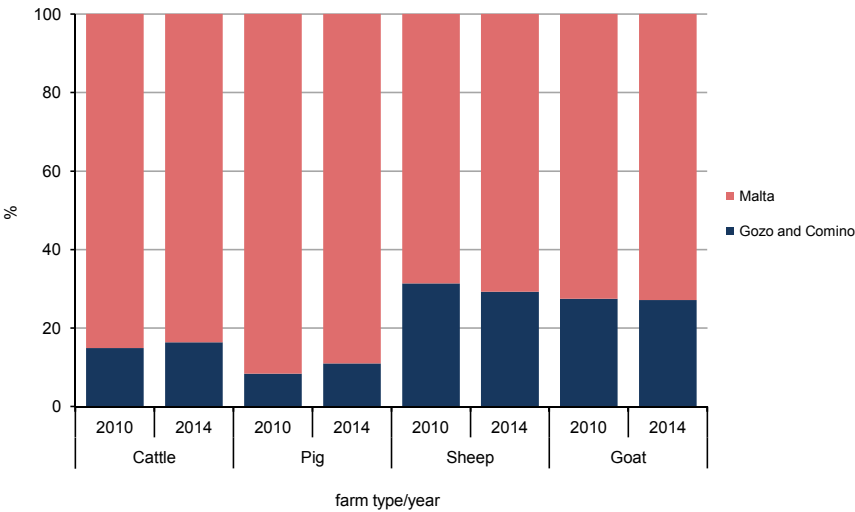

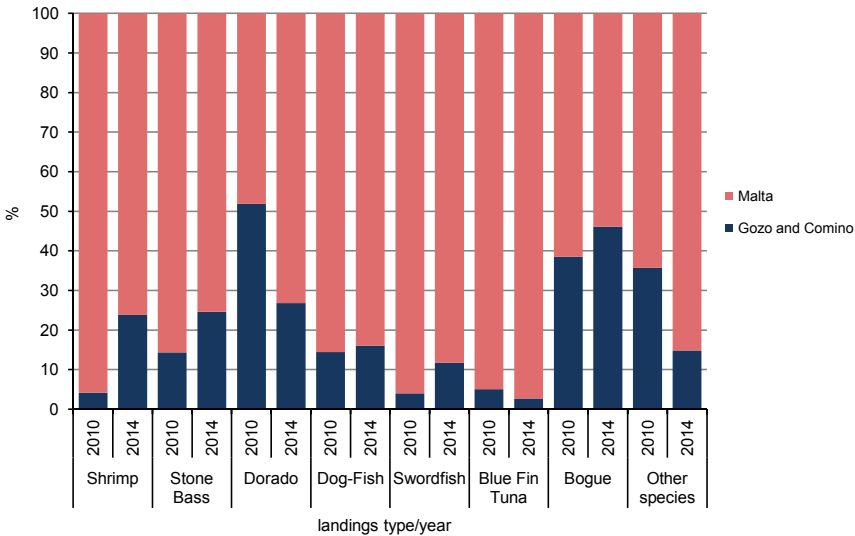

Chart 10.4 Distribution of fish landings by region and selected years

Methodological Notes

Agriculture

1. Information on agricultural produce which is sold through official markets is compiled daily and data is sent to the NSO on a monthly basis.
2. Regional data is derived at source where every consignment at the official markets is classified by the residence of the farmer.
3. Data is recorded by crop, quantity, value and average unit price.
4. The source of cattle stock data is the Bovine Register maintained by the Veterinary Regulatory Directorate. This data collection is regulated by EU Regulation (EC) No. 1165/2008.
5. Data collection on pigs, sheep and goats is regulated by EU Regulation (EC) No. 1165/2008.

Fishing

6. Data in respect of fish landings is collected from the daily returns of sales submitted by middlemen at the fish market. The Department of Fisheries and Aquaculture provides such data to the NSO on a monthly basis.
7. Data is recorded by species, quantity, value and average unit price.
8. The Fishing Fleet Register is maintained by the Fishing Vessel Register section within the Department of Fisheries and Aquaculture.

Methodological Notes

1. Definitions:

- **Two-thirds pension:** pension related to earnings, payable to persons who retired after January 1979. This scheme provides for a pension equivalent to two-thirds of the insured person's pensionable income. Maximum and minimum rates apply.
- **Retirement pension:** payable on reaching pension age. The rates and types of categories vary according to various statutory conditions.
- **Invalidity pension:** payable to persons deemed permanently incapable of suitable full-time or regular part-time employment. Rates vary according to different conditions.
- **National minimum widows' pension:** payable to widows, irrespective of age, who are not gainfully occupied, who are occupied but earning less than the national minimum wage and are in receipt of a service pension, or who are carrying out gainful activities but have the care and custody of children under 16 years of age. Rates may vary according to conditions outlined in the Social Security Act. Reference to 'widow' includes 'widower'.
- **Marriage grant:** a one-time payment payable on marriage to persons normally resident in Malta. To be eligible a person must be employed, self-employed or self-occupied for at least six months at any time prior to his/her marriage.
- **Maternity benefit:** payable to local residing pregnant citizens of Malta in respect of the last eight weeks of pregnancy and the first six weeks after childbirth. This benefit is only payable if the female is not entitled to maternity leave from her employer, if employed.
- **Sickness benefit:** comprises an entitlement of 156 days but may be extended to 312 days in certain cases. The first three days of each new claim for this benefit are not reimbursed.
- **Unemployment benefit:** payable to unemployed persons for a period of 156 days. This benefit is considered as a short-term benefit. Subsequently, unemployed persons may qualify for long-term benefits under the 'Social Assistance' category.
- **Children's allowance:** payable to local residing female citizens of Malta who have the care of children under 16 years of age.
- **Sickness assistance:** entitlement is subject to the satisfaction of the Director of Social Security that the claimant or a member of his/her household is suffering from a disease that can only be cured or alleviated by a special diet/regimen that incurs exceptional expenditure.
- **Social assistance:** payable to heads of households who are either unemployed or seeking employment and whose relative financial means are below those established by the Social Security Act. This benefit is also payable to single or widowed males/females who lack financial resources and who are caring for an elderly or handicapped relative on a full-time basis. Social Assistance also includes payments made to persons who satisfy the Director of Social Security that they are no longer capable of employment but do not have sufficient means to support their family.
- **Social assistance for single unmarried parents:** payable to a single parent whose income falls below a certain level. The person's earned income together with the Social Assistance entitlement for two persons should not exceed the National Minimum Wage.
- **Unemployment assistance:** heads of household who are registering under Part 1 of the Unemployment Register may be entitled to unemployment assistance after the period covered by the unemployment benefit has elapsed.
- **Supplementary allowance:** payable to households whose total income falls below the level established by the Social Security Act.

Transferred from Gozo and Comino to Malta	-	-	-	-	-
Total Production	2,552,963	2,461,733	2,613,482	2,742,749	2,716,656
Network losses	399,955	378,326	415,158	460,790	441,323
network losses as a % of total production	15.7	15.4	15.9	16.8	16.2
Consumption	2,153,008	2,083,407	2,198,324	2,281,959	2,275,333

Notes:

1. Public water supply comprises the potable water production of the Water Services Corporation.
2. Groundwater production includes the summation of pumping stations and boreholes
3. Total production for Malta includes the total of groundwater production and reverse osmosis production less the transferred water to Gozo.
4. Total production for Gozo includes the total of groundwater production and the transferred water from Malta less the polishing plant reject.
5. Consumption is total production less network losses.
6. Network losses comprise leakages from underground water distribution through mains and pipes
7. Consumption is inclusive of water which is unaccounted for by the billing section of Water Services Corporation (subsequently ARMS Ltd).

¹Waste reported as originating from one of the 14 localities in Gozo

²Waste reported as originating from various localities in Gozo

Notes:

1. Bulky waste recorded under Bring-in sites is discarded material collected from such sites.

2. The Other type of waste includes mainly 'screenings' waste and end-of-life tyres.

Methodological Notes

Water

1. Definitions:

- **Public water supply:** comprises the potable water production of the Water Services Corporation.
- **Groundwater production:** includes total volume of water produced by pumping stations and boreholes.
- **Consumption:** total production less network losses
- **Network losses:** comprise leakages from the underground water distribution system through mains and pipes.

Waste

2. Waste is classified according to the European Waste Catalogue/Hazardous Waste List, which is the approved European system for the classification of waste fractions. The EWC/HWL is a list of waste types which are assigned to processes, industries or sectors from which waste fractions may arise.
3. 'Screenings' refer to waste collected from the Gozo Wastewater Treatment Plant and include non-biodegradable and floating solids such as rags, paper, plastic, tin, wood and containers.
