Opening Discussion

- Minute essay comments:
 - Finding the in-class code.
 - Double checking grades.
 - My hours during finals.
 - Clicking to change color.

Quick Review

- Formal thinking and problems solving.
- Perhaps if you need to process large amounts of data you will consider making a computer do it for you.
- Goal of making you think and changing the way you think about things.

Course Evaluations

- Now we are going to do course evaluations.
- They are electronic so you will do them on your browser.
- Please be informative and provide constructive criticism. Hopefully you have seen that I do utilize student input for this course. That includes these forms.

Show Your Code

- Let's look at people's solutions to the final IcP.

Minute Essay

- What times can you NOT do a review session?
