

Security

In order to be considered eligible, project proposals submitted in response to this Call for Proposals shall not contain any *European Union classified information (EUCI)*¹. At the same time, a proposal selected for funding under this Call for Proposals shall not lead to a project that involves EUCI. More specifically, the research activities targeted in the project proposal **shall not**:

- use and/or generate information which might raise security concerns;
- involve information and/or materials requiring protection against unauthorised disclosure (EUCI¹);
- be going to use *EU classified background information*¹;
- be going to generate *EU classified foreground information*¹ as project results or produce deliverables which contain classified information;
- provide knowledge, materials and technologies that could be channelled into crime and/or terrorism;
- result in the development of chemical, biological, radiological or nuclear (CBRN) weapons and/or the means for their delivery;
- involve information and/or materials subject to national security restrictions.

Project proposals not complying with the above-mentioned conditions will be rejected.

¹ See definition in the Glossary of Terms contained in the Call for Proposals.
