Cohesion
funds

2014-2020 budget

2021-2027 budget

Crisis response

quick, based on leadership
and trust, protecting and
preventing harm

Resilience in future crisis

inclusive, learning from
the past but proposing
forward looking holistic
solutions

2021-2027 Cohesion funds programing

2019 – start of programing process

2020-2022 – planning and negotiations in
the context of several major crisis

2019 – European Green Deal – new climate
commitments

2020 – Resilience and Cohesion Funds

February 2022 – invasion in Ukraine

May 2022 - REPowerEU Strategy

Partnership implementation

Right circumstances - insufficient result

- Code of Conduct on Partnership – legally binding
- Time was not the issues - Early start of the process
- Interest was high - organised civil society with experience from previous periods
- Political support from the DG Regio - Community of Practice on Partnership

Transparency and public participation in preparation of partnership agreements

This chart identifies important milestones in the preparation of partnership agreements and whether a member state is complying with EU rules on public participation.

Climate ambition

Consistencies with the policy framework

Facing out fossil fuel financing

Just Transition Fund

Gas lock in Cohesion funds

Weak DNSH implementation

Accelerating energy transition

Energy Communities – RED II Regulation from 2019

Lack of transposition of the RED II Directive
Low OR no allocation even in comparison with
Recovery funds

Recommendations for the future Cohesion Policy

- Consistent policy framework
- Do significant benefit principle
- EU funds should go more local
- Citizens should be in the hearth of the planning and implementation

Thank you!
