ACTION COALITION ON **ECONOMIC JUSTICE AND RIGHTS**

VISION

By 2026, **economic justice and rights are guaranteed for women and girls**, in all their diversity, including for adolescent girls, as for men and boys.

Systems and structures are gender-responsive and ensure **equitable, secure access to resources, services and decision-making**; participation in **gender-transformative enterprise and trade**; promotion of **non-discriminatory labour markets, free of violence and harassment**; a **care economy** that equitably shares and values care and domestic work; and **resilience to economic shocks** such as the COVID-19 pandemic.

Accountability is strengthened through **gender-responsive economic laws and policies, sex-disaggregated data and gender statistics**. Diverse women's and girl's voices are truly heard, and their leadership is a reality.

WHAT NEEDS TO CHANGE?

Before the COVID-19 pandemic, **women spent triple the amount of time as men performing unpaid care and domestic work** and their social production continues to subsidize the entire economy.

An 18-country study poll shows that **COVID-19 is intensifying women's workloads at home**, and nearly half of all women with children at home say they spend more than 5 hours each day in childcare.

While 71 percent of the world's population lacks access to social protection, **women are particularly disadvantaged in social protection systems**, experiencing lower coverage rates and substantially lower benefit levels.

Today, **740 million women globally work in the informal sector**, where **job insecurity, low earnings and harsh working conditions and hours** are prevalent.

Young women (ages 15-29) are **3 times more likely to be outside the labor force and not in school** than young men.

The **gender gap** in labor force participation BEFORE COVID-19 **has not shifted in 30 years**. For three decades it has **stagnated at 31 percentage point gap**.

Economic fallout of COVID predicts that **47 million more women will fall into EXTREME poverty**.

INCREASE WOMEN'S ECONOMIC EMPOWERMENT BY TRANSFORMING THE CARE ECONOMY

ACTION

By 2026, increase the number of countries with a comprehensive set of measures including through investments in gender responsive public and private quality care services, law and policy reforms with the recommendation of creating up to 80 million decent care jobs to recognize, reduce and redistribute unpaid care work and reward and represent care workers, while guaranteeing their labour rights.
