

Authorship/CRediT Change Form

Purpose of this form:

- Change the authorship of a manuscript after initial manuscript submission
- Change the CRediT roles of author(s) on a manuscript after manuscript acceptance

Instructions:

To initiate either of these changes, the Corresponding Author must e-mail this completed form to the journal's Editorial Office. For authorship changes after initial submission (including addition, removal, or changes in author order), or for changes in CRediT contribution after manuscript acceptance, the Corresponding Author must arrange for all coauthors (including any authors being added or removed) to sign this document, consenting to the change. For more information on what constitutes authorship, please see the [ACS Ethical Guidelines to Publication of Chemical Research](#).

Once complete, please return this form via email to the journal's Editorial Office for review. In the rare instance that authorship changes are requested after publication, an Addition/Correction must be submitted to the appropriate journal to be published as a linked document; please upload this form as part of your Addition/Correction submission.
