As a result, the author contributions statement, declarations of competing interests and financial support, and the acknowledgements sections required updating. The amended sections are as follows:

Acknowledgements. This study was supported by SANLAB Simulation A.Ş.

Author contributions. The research work of this paper is the result of the joint efforts of the whole team. ES (Eyyup Sincar) conducted the study and wrote the article, while ZYB (Zeki Yagiz Bayraktaroglu) provided comprehensive supervision throughout all stages of the project, including reviewing and editing the article. EAB (Eray A. Baran) made substantial contributions to the concept of design and critical review of the study. EE (Evren Emre) made substantial contributions to the validation of proposed methods including analysis and interpretation of experimental results. All authors contributed to the manuscript preparation and approved the final version.

Competing interests. The authors declare no conflicts of interest exist.
